

Request For Quote Implementation Security Surveillance Solution (Cameras)

Q&A #1

1. The exact number of Fixed Dome Interior Cameras to be provided and installed by Security Integrator.

Answer:

- a. *The NCEL requires 54 interior fixed dome cameras (Type: M3077-PLVE).*
 - b. *Additionally, for a secured internal office we require 6 PTZ cameras (Type: PTZ AXIS M5000-G).*
 - c. *This count does not include the teller cameras required for the Claims Center. The specifics for the teller cameras are listed below in number 6.*
 - d. *Reference the table listed below.*
 - e. *For all cameras, the NCEL is willing to consider other brands and models if they are Open Network Video Interface Forum (ONVIF) compatible. However, the vendors must list those as optional recommendations, not included in the base proposal. This applies to all cameras required as part of this RFQ.*
2. The exact number of spare Fixed Dome Interior Cameras to be provided by Security Integrator.

Answer:

- a. *6 type – M3077-PLVE Fixed Dome Interior*
 - b. *1 type – PTZ AXIS M5000-G*
3. Are the Exterior Cameras to be
 - a. Single-lens Bullet Cameras?
 - b. Single-lens Fisheye Dome Cameras?
 - c. Four-lens multi-sensor Dome Cameras?

Answer:

- a. *The exterior cameras are to be Multi Sensor Dome Cameras that are wireless.*
- b. *These cameras must have a wireless access point provided by the vendor and installed in the building by the vendor.*
- c. *The cameras must also come equipped with pendants for installation on the external light pole.*
- d. *The cameras must also have a power bridge to connect to the light pole as part of the proposal.*
- e. *The camera type is: AXIS P3737-PLE*

4. The exact number of Exterior Cameras to be provided and installed by Security Integrator.

Answer: 10 (Type: AXIS P3737-PLE)

5. The exact number of spare Exterior Cameras to be provided by Security Integrator.

Answer: 1 (Type: AXIS P3737-PLE), this spare camera will require mounting hardware but no power connection or wireless AP. We only require a camera and a pendant.

6. Are the Teller cameras to come from the lot of Fixed Dome Interior Cameras to be purchased, or is there another group of cameras that are not listed in the RFQ?

Answer: No, the teller cameras are not included in the number quote from the Fixed Dome Interior Cameras. For the teller cameras, we require 5 installed and 1 spare of type: AXIS M1137 MK II Box Camera.

7. Please tell us the voltage present for lighting when the parking lot overhead lights are on.

Answer: 277v

8. **Banking Area Cameras:**

Will there be cameras required near the teller/banking areas? This was referenced in the previous RFQ but does not appear to be included in the current version.

Answer: Yes. See question 6, also reference the table listed below.

9. **Camera Quantities:**

Can you confirm the anticipated number of cameras for the parking lots and the interior spaces? Having defined quantities will allow us to provide a more accurate and uniform quote.

Answer: See questions 1, 2, 4, 5, and 6, also reference the table listed below.

10. **Electrical / Permitting Requirements:**

Will a permit be required to tie into existing electrical poles for exterior camera installations? Specifically, we would be connecting to poles that already have lighting and want to confirm any permitting or electrical requirements associated with adding equipment to those circuits.

Answer: A permit is needed. A licensed electrical contractor is needed for the connections to the power/lighting circuits. A low volt specialty electrical contractor license would not be sufficient.

11. Installed vs. Spare Equipment:

Can you confirm the total number of cameras to be installed, as well as whether there is a requirement or preference for additional cameras to be provided as spare stock?

Answer: See questions 1, 2, 4, 5, and 6, also reference the table listed below.

Table – Camera Quantity and Type

Location	Type	Quantity – Installed	Quantity - Spare
Interior	M3077-PLVE	54	6
Interior	PTZ AXIS M5000-G	6	1
Exterior	AXIS P3737-PLE	10	1
Interior	AXIS M1137 MK II Box Camera	5	1
