

## Request for Quote – Three-Sided Tower Jackpot Sign Q&A

1. Please advise if this is a purely custom-made sign or do you have any referential picture of this if ever procured in the past. **This sign has not been procured for the NCEL in the past.**
2. Could you please confirm whether a printed copy of the RFQ response must be shipped, or if an emailed electronic copy will be accepted? **The NCEL will accept a printed copy or an electronic copy.**
3. Delivery Ship points. Can you please provide the delivery ship points if the shipment is split up? There is a difference in price if multiple points are used rather than 1 Raleigh address. **All signs will ship to single location in Raleigh.**
4. You mention Flex terminal in the RFP. Is this a different terminal that is used in most of your retail stores? **The Flex terminal is the standard terminal used across the entire retailer base in NC.**
5. Is the June 30<sup>th</sup> delivery date a requirement? Most responding companies will be challenged to hit this delivery date. **June 30 is the preferred delivery date but not a requirement to bid. Please indicate the delivery date for your company based on the requirements. If shipping mode (for example, freight vs. air) will impact delivery date please indicate cost and delivery date for each mode as options in the quote.**
6. You don't ask for a IGT required base to attach to the top of the GT20 unit. Is this required or should we add it as an option? **This unit will be attached to the GT20 unit. The "IGT required" base should be included as an option.**
