* Approximate overall odds of winning including break even prizes are: 1 in 4.07.

** The number of prizes are approximate based on the number of tickets printed. Chances of winning and the number of prizes are established at the time of printing and will change as prizes are won.

5X Bingo Multiplier

How to Play

1. Scratch off the "CALLER'S CARD" to reveal 24 symbols.
 2. Gently scratch all numbers on Cards 1 through 4 matching the numbers revealed on the CALLER'S CARD.
- TO WIN: Each card has a corresponding prize legend printed to the side of that card. On any card:

1. Match all numbers in a complete horizontal, vertical, or diagonal line to win \$3 to \$25 (diagonal must include "FREE" space)

2. Match all numbers in all 4 corners to win \$25 to \$200.

3. Match all numbers that make a complete "X" (8 numbers and "FREE" space) to win \$150 to \$1,000.

- Each BINGO CARD on the front of the ticket has a corresponding prize legend.
- Each of the 5 BINGO CARDS will have one FREE space. Each BINGO CARD will have one multiplier star "2X", "3X", "4X", or "5X". FREE spaces and multiplier stars may be counted as numbers to form winning patterns.
- If a multiplier star is used to complete a line, win that LINE prize multiplied by the corresponding BINGO CARD multiplier.

NOTE: You may win a prize on each of the 4 cards on this ticket. However, you cannot win more than one prize per card. If more than one win is possible such as with an "X", you may win only the highest of the possible prizes.
